ABOUT

TYPOGRAPHIC is a font built through hand-sculpted terrain and translated through inverted color mapping. Each letter becomes a miniature landscape, shifting through layers of orange, purple, red, and blue to reveal changes in elevation. Blending topography and typeface, these letterforms carry natural contours that feel rooted in the Earth itself.

Engineer a great project with TYPOGRAPHIC—transforming elevation into expression.

RULES

You are allowed to:

USAGE

Typographich Low is a bitmap-style font. It is best suited for small-format designs such as graphics, logos, and digital artwork. Due to its raster nature, it may not scale cleanly to large sizes and is not recommended for large-format applications. This font is provided “as is” without warranty of any kind. Attribution is not required, but always appreciated.
